

Eagle After School Program

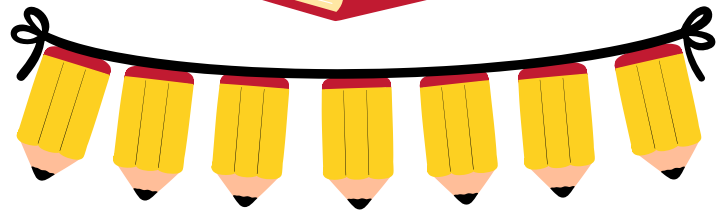

November 2024 Newsletter

What's Happening @ EASP?

November was a fabulous month at the Eagle After School Program (EASP)! We were excited to welcome many new families into the program and we now have over 130 students enrolled! This increase in enrollment highlights the growing interest in our after-school activities, as more families recognize the value of the diverse learning opportunities, enrichment programs, and positive environment EASP provides. We look forward to offering even more exciting programming for students in the months ahead!

How is EASP Funded?

The Eagle After School Program is 100% funded through the Nita M. Lowey 21st Century Community Learning Center (CCLC) grant. The School District of Mauston has been fortunate to be awarded two (WSE & GSE) CCLC grants. The grant process itself is highly competitive, with many districts applying for limited funding. Each application is carefully reviewed, and only those that demonstrate a clear commitment to improving educational outcomes for students, addressing the needs of the community, and offering innovative programs are selected. The fact that Mauston has received two such grants reflects both the quality of its proposals and the district's dedication to providing meaningful learning experiences for its students. If you have further questions about EASP funding please don't hesitate to reach out.

Important Dates

No EASP December 23-31

No EASP January 1
